25X1	4. Telephoned General Rederick in OSD, L&L.
	advising him that two of the House reporters
25X1	did not have DOD security clearances although they
	have taken considerable TOP SECRET testimony including the recent
	appearances of the Secretary of Defense and the Chairman of the Joint
	Chiefs of Staff. I pointed out we had mentioned this to who
	stated that they had been taking testimeny for years and surely they
	must have some kind of clearance. Roderick looked into the matter
	with General Moore who apparently gave Roderick a hard time. He did
	state he had a letter dated in 1953 from Joe Martin on stating he
	had been investigated by the FBL. I suggested Rederick might mention
25X1	this to and we probably would speak further to
25X1	5. met with
	Senator Joseph 5. Clark to brief him on the Chinese communist atomic
	energy program. Mr. Ben Read, Administrative Assistant to Senator Clark,
	sat in on the briefing. priefing was short and well organized.
	He used several home made charts and a number of photographs in describing
	to Senator Clark progress which the Chicom's have made and our estimate
	as to their capability in producing an atomic bomb. Senator Clark raised
25X1	several questions during the course of the briefing which was
	able to answer without difficulty. The Senator expressed his appreciation
	for the briefing and said it had been most helpful.
25X1	6. I left with Mr. Al Pierce, on the staff of the
	Joint Committee on Defense Production, a copy of a document entitled
	"Civil Defense in the USSR". This had been prepared by ORR in response
	to a specific request from Mr. Pierce.
25X1	7. Talked with Walter Reynolds and
20/(1	
	Julius Cahn, on the staff of the Senate Government Operations Committee,
	regarding possible interest of Senator Humphrey in a science conference in
	India. Neither Reynolds nor Cahn knew anything about this but Cahn said he would raise the question with the Senator when he met with him today.
	Later in the day, Mr. Cahn called and said he had raised this question with Senator Humphrey who knew nothing about it. This information was
	the control of the co
	passed on to Mr. Gregg. (See Journal of 10 April 1961.)
